Photo	Description	Information
	Container management has improved over the last 25 years. Images such as this occur today much less than they did a couple of decades ago.	Cans in field_2 copy.gif (1397429 bytes)
	Most pesticide containers are legally considered to be hazardous until properly rinsed. Scenes such as this are becoming fewer.	Roadside boxes copy.gif (1672403 bytes)
	This is another example of poor container management.	Roadside cans copy.gif (1280056 bytes)
	Improper disposal of empty containers.	Unrinsed cans copy.gif (1711793 bytes)
